

Bisrat Yalew

Fullstack Developer

Diligent software developer with 2+ years of professional experience in the development field in different positions. Highly utilized my skills in Full-stack development using Node.js and Mobile app development using React Native. I am passionate about developing innovative programs that expedite the efficiency and effectiveness of organizational success and I am eager to build innovative and cutting-edge business solutions for the impressive suite of clients with its global reach. Well-versed in technology and writing code to create systems that are reliable and user-friendly. I am also a strategic thinker, and innovative creator to develop software that is customized to meet a company's organizational needs, highlight its core competencies, and further its success.
